APA|K Pittsburgh
Advanced Practices in Acute Kidney Injury

A two-day symposium for:
- Internal Medicine Physicians
- Nephrologists
- Intensivists

November 17-18, 2017
Wyndham Pittsburgh University Center
100 Lytton Avenue
Pittsburgh, PA 15218
FACULTY

Dana Fuhrman, DO, MS
A pediatric intensivist and nephrologist, she studies biomarkers and AKI risk factors at Children's Hospital of Pittsburgh.

Stuart Goldstein, MD, FASN
Professor of pediatrics and director of the Center for Acute Care Nephrology at Cincinnati Children's Hospital Medical Center, he studies pediatric AKI criteria and renal therapy.

James Johnston, MD
Professor and clinical director of the Renal-Electrolyte Division at Pitt, his clinical studies include peritoneal dialysis and hemodialysis-based renal replacement therapy.

Sandra Kane-Gill, PharmD, MS, FCCM, FCCP
- An associate professor in Pitt's School of Pharmacy, she studies detection, prevention, and management of medication errors and adverse drug events.

John Kellum, MD, MCCM
An expert in critical care nephrology, sepsis, multi-organ failure and clinical epidemiology, he is the director of the Center for Critical Care Nephrology at Pitt.

Raghavan Murugan, MD, FRCP, FCCM
- Attending intensivist at the UPMC Abdominal Organ Transplant ICU, he studies mechanisms of inflammation-induced organ dysfunction.

Paul Palevsky, MD, CM, Dr hc, FCCP, MCCM
- A professor in the Division of Renal-Electrolyte in Pitt's Department of Medicine, and Chief, Renal Section at VA Pittsburgh Healthcare System, he studies AKI and critical care nephrology.

Michael Pinsky, MD, CM
A specialist in nephrology and transplant surgery in Pitt's Division of Renal-Electrolyte, he researches cardiovascular risk, functional assessment and infection in kidney transplant patients.

Chethan Puttarajappa, MD
A pediatric intensivist and nephrologist, she studies biomarkers and AKI risk factors at Children's Hospital of Pittsburgh.
4 Reasons to Attend the APAKI Symposium...

1. Hear from nephrology and intensive care experts and researchers
2. Meet like-minded colleagues to discuss the latest advances in AKI diagnosis, treatment and prevention
3. Engage in a dynamic, interactive exchange of ideas from AKI etiology and risk factors to nephrotoxic drugs
4. Learn practical tools for best practices in care of AKI patients

Want to Know More?
For hotel arrangements and other inquiries, contact APAKI symposium project manager Faye Cotton: cottonfg@upmc.edu or (412) 383-4229.

Sign Up Online
At the Center for Continuing Education in the Health Sciences at https://ccehs.upmc.com. Choose Upcoming Events tab. Scroll down and click APAKI on November 17. Choose the “Click HERE to Register” button. The $250 registration fee includes meals, tuition, and 30% discount on hotel room cost.

We greatly acknowledge the generous support of Astute Medical, Inc. and Baxter Healthcare Corporation. This activity has been approved for AMA PRA Category 1 Credit™. The University of Pittsburgh is an affirmative action, equal opportunity institution.
