Participation by all individuals is encouraged. Advance notification of any special needs will help us provide better service. Please notify us of your needs at least two weeks in advance of the program by calling Jackie Lynch at 412-647-2130

## PURPOSE

This educational seminar will be presented to provide fundamental information necessary for a comprehensive approach to the early recognition and diagnosis of oral cancer. This is intended to improve the practitioner's ability to provide long-term post treatment care of the oral cancer patient.

## WHO SHOULD ATTEND

Dentists, dental hygienists, physicians, and nurses.

## OBJECTIVES

At the conclusion of this seminar, participants should be able to:

- Review the principles of dental care in the patient with oral cavity and oropharyngeal cancer.
- Recognize the importance of screening for oral cavity cancer and be able to perform the screening at each dental encounter.
- Identify causes and patients at risk for oral cavity and oropharyngeal cancer.
- Explain how radiation and chemotherapy are used in the treatment of oral cavity cancer and their acute and chronic post-treatment effects.
- Recognize the challenges of post treatment dysphagia and osteoradionecrosis.
- Identify strategies and options to help patients stop smoking.

## CONTINUING EDUCATION CREDIT

The University of Pittsburgh School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Pittsburgh School of Medicine designates this live activity for a maximum of 3.75 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Other health care professionals are awarded 0.3 continuing education units (CEU's) which are equal to 3.7 contact hours.
